» Angie Zapata was our sister, our aunt, our daughter. She was brutally murdered last July. «

The Zapata Family

**H**er alleged murderer is being prosecuted under Colorado's hate crimes law, in a trial that begins next week in Greeley, Colorado.

Angie was loving, caring, vibrant and full of life. But that life wasn't easy. As a transgender woman, she faced harassment, bullying and exclusion.

Being a woman was who Angie was — an incredibly special woman we loved so much. One way we honor her is by supporting a federal hate crimes law that will no longer exclude people like Angie from its protections.
